LIFE SENTENCE FOR ROBT. FRASURE

FOURTH TRIAL OF NOTED CASE ENDS IN A CONVIC- TION.

Life imprisonment in the penitentiary was the verdict of the jury in the case of Robert S. Frasure, of Ewing, Fleming-co., tried in the Lawrence Circuit Court for the murder of his niece, Miss Stella Kinney, in Carter-co. The trial began Wednesday of last week and the case went to the jury Tuesday shortly after four o'clock. The verdict was announced the next morning, soon after court assembled. It is said the jury had no difficulty in agreeing. Steps were taken for a new trial.

The evidence was circumstantial, but formed what is generally considered a very complete chain. This was the fourth trial. The first resulted in a hung jury and the second in a life sentence. He served several months in the penitentiary, but the Appellate Court gave him a new trial. The case then came to Lawrence on a change of venue and was tried in October, resulting in a hung jury, 9 to 3 for conviction.

The crime was committed just after dark on the evening of May 2, 1915, near Olive Hill. Several citizens were attracted to the spot by calls from Frasure, who claimed his buggy had been stopped by two men, who wounded the girl and robbed him. The story was not accepted and he was arrested. The girl was unconscious and died the following day without regaining her senses.

The girl was 17 years old, a daughter of Hatfield Kinney and wife, the latter being Frasure's sister. She had been visiting at the home of Frasure in Fleming-co. ten months. He was driving through the country with her to her home near Grayson.

A post mortem showed the girl was in a delicate condition and the contention of the commonwealth is that Frasure was responsible for her condition and resorted to this act to cover up the affair.

He has a wife and children and was prospering as a merchant at Ewing, to which place he moved a few years ago from Floyd-co. He is 32 years old.

A motion for a new trial was overruled but an appeal was granted. A member of the jury told us he was never associated with a dozen better men than this jury. During a full week together he said he did not hear an oath or a word spoken that would have been objectionable in any presence.

A judgment was entered against Wm. Brainerd and in favor of Coburn & Whaley for \$7000.

A motion was made to set aside the verdict of \$250 fine and one year in jail, inflicted on Joe Caldwell, charged with maliciously cutting Chas. Cooper at Cherokee, Judge Cisco allowed the motion to go over to the next term, but delivered a very wholesome and commendable lecture about setting aside the verdicts of juries in such cases as this. Caldwell did well to escape the penitentiary, in the opinion of those who heard the evidence.

The case against Claude Stumpe, for deserting his infant children, was compromised by a reconciliation with his wife. They have located at Dayton, Ohio.

**LETCHER COUNTY MECHANIC
ASSASSINATED ON HIGHWAY.**

Whitesburg, Ky., March 3.—Bob Birdwell, 40 years old, a bricklayer, of Cambranch, this county, was assassinated shortly after noon to-day while walking along the public road in Lucastown. Two shots were fired from a barn, it is said.

The first shot went wide of the mark, but the other penetrated Birdwell's body.

DEATH OF ZED ATKINS.

The Lawrence county friends of Zed Atkins will be sorry to hear of his death which occurred in Huntington, W. Va. His home was in Hamilton, O., and he was enroute to Tuscola, this county, for a visit when he took sick and died in Huntington. He had been a sufferer for some time from Bright's disease.

Mr. Atkins is survived by his second wife. His first marriage was to Miss Jordan, a sister of H. A. Jordan, of Tuscola. She died a few years ago. Mr. Atkins had lived in Cincinnati and Portsmouth, O., and at the time of his death was in the grocery business in Hamilton.

LIFE CERTIFICATES.

Prof. J. B. McClure has recently received from the State Educational department of West Virginia a life certificate, authorizing him to teach school anywhere in that State without further examination. He had previously acquired one of that kind in Kentucky, so that he is at liberty to roam over two States and no local official has power to deny him. He is justly proud of the two life certificates.

HUGHES FOR COMMISSIONER.

Hon. Jas. A. Hughes is said to be slated for appointment as one of the three Public Service Commissioners of West Virginia. The place pays \$6000 per year. The other two members will be Democrats.

MARRIED AT CATLETTSBURG.

Asie Holbrook, 25, Glenwood, Ky. Miss Pearl Ross, 22, Bolts Fork, Ky.

REV. WALKER TO GO TO BROOKHAVEN, MISS.

Dr. S. W. Walker, pastor of the Johnson Memorial church, Huntington, will begin his labors as an evangelist as soon as his pastorate there is ended. Recently he received an invitation to go to Brookhaven, Miss., for a revival campaign in the summer. He requested that the date be deferred until mid-September and this request was granted. The revival will begin on September 16, and Mr. Walker will conduct it with the assistance of Mr. and Mrs. P. M. Boyd, who are to be associated with him in the evangelistic field.

Dr. Walker expects to leave for Brookhaven immediately upon the conclusion of the annual sessions of the Western Virginia Conference of the M. E. Church, South, which will be held at Louisa early in September.

LOUISA PARTIES DRILLING IN BATH COUNTY.

Kirk brothers have shipped their drilling outfit to Olympia, Bath county, where they will drill a well on an oil lease owned by J. N. Marcum and Harry G. Wellman, of Louisa. This lease is located near the oil wells recently drilled in the vicinity of Olympia.

F. H. Yates, F. T. D. Wallaie, Jr., and Joe Miller, of this place, also have leases in that neighborhood.

MRS. MARY RICE

Mother of Prominent Citizens, Dies
In Her Eighty-eighth Year.

Mrs. Mary Rice died at the home of her son, Dr. W. A. Rice at Fallsburg last Thursday, March 1, 1917, at the age of 87 years, 1 month and 5 days. She was the mother of fifteen children, of whom there are seven living: Dr. N. F. Rice, of Blaine, Con and James A. Rice, of Dennis, Dr. C. S. Rice, of Rice, Neb., D. F. Rice, Alberta, Canada, Dr. W. A. Rice, Fallsburg, J. H. Rice, Fullerton.

She was a member of M. E. Church South and had been for many years. Always kind and ready to help in time of need.

She was taken to the home graveyard on Blaine for burial at her request.

She said she was going to a better world than this. Peace be to her soul. As far as the writer can ascertain she was the only war mother in the county. She was the daughter of Squire Walter Osburn, and has three brothers living, Charles, Loss and W. M. Osburn, all at Blaine. She was married to Rev. William C. Rice, March 12, 1846. She has lived with her son, Dr. W. A. Rice, for last seven years. Was kind to all and wanted everybody to meet her in the sweet beyond.

A FRIEND.

Card Of Thanks.

The family returns their heartfelt thanks for the kindness of the neighbors and friends who served us during our mother's sickness. DR. W. A. RICE.

OHIO RIVER WORK WILL NOT CEASE ALTOGETHER.

Washington, March 4.—It is officially stated that work on the Ohio river improvement will not be entirely abandoned because of the failure of the Rivers and Harbors Bill. It was learned to-day that an unexpended balance of about \$3,000,000 is available with which to continue this work during the next fiscal year.

MISS LIDA MOORE DEAD.

Miss Lida Gartrell Moore, daughter of the late Judge Laban T. Moore, and a member of one of the most prominent families in Catlettsburg, died at her home, Beechmore, Catlettsburg, Sunday morning at four o'clock. Death was due to pneumonia.

She was born in Louisa, Ky., in 1855, but was a resident of Catlettsburg practically all her life. She was a member of the Catlettsburg M. E. Church, South.

She is survived by three sisters, Miss Mary Moore, of Beechmore, Mrs. Jas. Patton, of Catlettsburg, and Mrs. E. J. Buffington, of Evanston, Ill. Funeral services were held at the residence Tuesday morning at ten o'clock.

Miss Moore was a niece of F. R. Moore, of this city.

DELIGHTFUL AFTERNOON PARTY.

Mrs. B. E. Adams entertained on Wednesday afternoon in her usual gracious manner the members of the L. F. Club and some other friends at her home on Perry-st. It was a very pleasant gathering of congenial friends and after several games of flinch were enjoyed a pretty luncheon was served to the guests.

The attractive home was tastefully decorated for the occasion with St. Patrick emblems.

COURT OF APPEALS.

The Court of Appeals has affirmed the case of McCoy vs. Williamson Pond Creek Coal company, of Pike county. Morse vs. Duryea, reversed. Rogers vs. Duryea, reversed. Big Sandy Company vs. Duryea, affirmed on the original and cross-appeal, all from Pike county.

HAS PURCHASED A FARM.

Peter V. Alley, of Borderland, Pike county, has purchased from Dan Akers, a good farm located just above the mouth of Blaine, seven miles below Louisa and will move to it. Mr. Alley is a good citizen. His children have been attending school in Louisa for three or four years.

GOOD ROADS MEETING APRIL 3

STATE COMMISSIONER WILEY HAS CONSENTED TO COME TO LOUISA.

On the first Tuesday in April, which is the 3rd, the State Commissioner of Roads of Kentucky will be at Louisa to give whatever encouragement he may to a movement for better roads. He is coming at the request of some of our officials and citizens.

This will be the first day of the regular semi-annual session of the Lawrence Fiscal Court. The County Judge has offered to give as much of the court's time that day as it desired to consume for the discussion and encouragement of good roads. Everybody interested in this vital question is invited to be present. Not only invited, but urged to attend.

It is gratifying to note that there is a steadily increasing interest in better roads. Our citizens must come to the place where they will lend their time and presence to the movement. It will pay the biggest dividends of any enterprise that could be launched, and every citizen may participate who has any public spirit whatever.

Let's make April 3rd a big day for the road movement and get down to something practical.

A PRESTONSBURG YOUTH MISSING.

Portsmouth, March 6.—Mrs. Minnie Collins, of 1116 Front-st., has received word that her nephew, Patrick Wright, aged 19 years, son of W. P. Wright, of Prestonsburg, Floyd-co., Ky., disappeared from his home last Wednesday. It is thought he is on his way to this city. The young man has a light complexion, blue eyes, dark hair and is tall and slender. Besides his father, he has two sisters and one brother at home.

EXAMINATION FOR FOURTH CLASS POSTMASTERS.

The U. S. Civil Service Commission announces that on April 14, 1917, an examination will be held at Pikeville to fill a contemplated vacancy of postmaster at Heller. Compensation of postmaster \$617.

Information concerning the requirements can be secured from the postmaster at Heller.

THREE DEATH ARE REPORTED

Williamson, W. Va.—When he attempted to move a live wire with a broom, Alex Kish, a young Hungarian, met his death a few days ago. Kish was employed by the United States Coal & Coke company and is said to have been intoxicated when he attempted to move the wire.

A fall of slate was the cause of the death of J. M. Medes, who was employed by the above company. A peculiar accident caused the death of Otis Toler, of the Glen Alum Coal company. Toler was a brakeman and was riding on a motor which was wrecked. The car crashed into loose slate which fell and crushed Toler.

BAD TOOTH CAUSES DEATH.

Syracuse, N. Y.—F. R. Hazard, millionaire President of the Solvay Process company, parent company of the Kentucky Solvay company, died to-night, after two weeks' illness, caused by an infected tooth, despite the efforts of specialists from all over the country. He underwent two operations.

HOME DEMONSTRATOR

Work for the Year is Being Started
by Miss Davis.

Miss Davis, Home Demonstration Agent is now beginning her season's work and although it seems early, it is not, as so much depends on getting an early start. Clubs are to be organized throughout the county, and as early as these names can be obtained by the agent, the first form of club work will begin.

Girls desiring to enter into this work may like to know in full their duties. On joining a Girl's Canning Club she agrees to cultivate one-tenth acre of home garden and to can a part or all of its crop according to instructions of the agent, Miss Davis. She also agrees to attend club meetings, make club uniform and keep a record book of this season's work.

Notice the change of the duties. Last year the one-tenth acre had to be tomatoes, but this year that one-tenth acre becomes a garden, this is a welcome change, however, a girl may raise as many tomatoes as she desires.

If there ever was a time for the club girl to make her garden count, it is now. In times of peace we do not produce enough stuff for American consumption. Now that we have prospect of a war on our hands there is a shortage of most all foods. Even if there wasn't war facing us, its cheaper to raise what we consume, if we can raise it, than to buy it. Girls who raised tomatoes last year are now selling them at \$1.50 a dozen, this doesn't mean that they will sell at this price next fall, but they are sure to sell well.

Girls send in your names and become a member of one of these clubs at once, so that you may receive your seeds and begin planting that garden, that will mean not only dollars and cents but education not only the hands but the mind as well.

CORNWELL TAKES OATH AS WEST VIRGINIA GOVERNOR.

Charleston, W. Va., March 5.—John J. Cornwell became the fifteenth Governor of West Virginia by taking the oath of office in the parlor of a hotel yesterday. The oath was administered by Judge Charles W. Lynch, of the Supreme Court of Appeals of West Virginia. Inaugural ceremonies were also to have been held to-day in front of the Capitol, but owing to a severe snowstorm, the plan has been abandoned, and will be held in the chamber of the House of Delegates instead. More than seven inches of snow covers the ground, seriously interrupting wire and rail communication.

ESTILL OIL HOLDINGS TRANSFERRED BY DULUTH.

Lexington, Ky., March 2.—C. R. Dulin, of Lexington, an early operator in Estill county oil fields, will transfer his holdings worth approximately \$200,000 in the Maple Oil company of which he is the principal stockholder, to Ohio oil operators to-day and transfer his work to the Clay County Oil company. The Dulin Oil company, with a capital stock of \$50,000, was organized here to-day to develop recently acquired oil lands in Clay county. Dulin was elected president; Judge A. J. G. Wells, of Irvine, vice president; W. T. Wolfolk, of Lexington, secretary and treasurer. The new company has 23,000 acres under lease in Clay county.

REVIVAL SERVICES

Meeting at the Court House Will Begin Next Sunday.

As will be seen in the regular announcements of the M. E. Church South, a series of revival meetings will begin at the court house next Sunday. The preaching will be done by the pastor, Rev. W. H. Foglesong, and the singing will be led by Rev. L. P. Kirk, who has satisfactorily filled several engagements of this kind.

Everybody, regardless of church affiliations, invited to attend these meetings and assist in the work. It is hoped much good may be accomplished. Make arrangements to attend every service and endeavor to bring others with you.

IS THERE HOPE BEYOND THE GRAVE?

Rev. W. A. Gaugh will preach at the Baptist church next Sunday morning on "The Office of the Holy Spirit." His subject for Sunday evening will be "Is There Hope Beyond the Grave?"

DEATH OF GAYLORD YORK.

The following item was sent in by Mrs. O. H. Kinner, of Buchanan, Ky., who is an aunt of the young man. His death occurred Feb. 27, 1917, at Middletown, Ohio:

Gaylord York passed away at his home on Garfield avenue Saturday evening at 7:20 after a short illness. He was twenty-one years of age and has been a resident of this city three years. He came here from Ashland, Ky., and ever since has resided with his father, Thomas York on Garfield avenue. Since a resident here he has been employed as paper hanger with Stanley Webster and has gained numerous friends all of whom mourn his loss. The funeral services will take place from the residence tomorrow morning at 10 o'clock. Rev. Foster will officiate and interment in charge of A. T. Wilson and Son will be made in Woodside cemetery. Two brothers, Thomas York, of Cleveland, and Clarence York, of Ashland, Ky., have arrived to attend the funeral services.

One hundred and four counties and twenty-three towns have asked for State-aid, applications for which for 1917 have closed. The only counties out are Calloway, Caldwell, Clay, Fleming, Floyd, Green, Jackson, Knott, Lee, Leslie, Livingston, Magoffin, Owsley, Merriam, Robertson and Wolfe.

Among the towns asking for State-aid are Morehead, Mt. Sterling, and Augusta.

STATE-AID APPLICANTS.

The law fixes the time by which applications for State-aid must be in.

GARTIN BUYS TWO FARMS.

J. P. Gartin has purchased from John Will Diamond their farms on Two Mile creek, for \$4000 and \$3000. It is said they will buy farms in Wayne-co., Ky., where a number of farmers from this section located a few years ago.

W. L. Diamond also sold the farm where he lived to M. A. Hay. He has bought a farm near the Lincoln-Pulaski county line. His father, John Diamond, and brother John B., have purchased farms in the same vicinity.

MR. H. A. SCHOLZE.

Mr. Homer A. Scholze and family expect to be located at Middleport, O., for the next two years. He is one of the most active members of the National Contract company and will have charge of the construction of one of the two Ohio river locks which that company will construct. Work will start some time in this month and will be pushed with the energy characteristic of this successful company. Mr. Scholze is not only a competent engineer, but also unusually efficient in handling large work. His success is a source of gratification to his many Louisa friends.

REWARD FOR ALLEGED SLAYER.

A reward of \$100 was offered, today for the arrest of Beach Maloney, accused of killing George Horn at Irvine Depot, Estill county. He is said to be in Perry-co.

FARMERS ORGANIZE LOAN ASSOCIATION

45 APPLICATIONS FOR LOANS AMOUNTING TO MORE THAN \$53,000.

The Lawrence County Farm Loan Association was organized at the city hall last Saturday. There was a large crowd present, notwithstanding the bad condition of the roads.

The following were elected directors: James H. Woods, J. K. Woods, W. E. Queen, W. M. Fulkerson, and H. A. Jordan.

After the stockholders meeting the directors met and elected James H. Woods president, W. M. Fulkerson vice president, and M. F. Conley secretary-treasurer. (The latter agreed to serve temporarily.) The loan or appraisal committee consists of J. H. Woods, W. E. Queen and W. M. Fulkerson.

45 applications for loans have been received, aggregating about \$53,000.00. The Federal Farm Loan bank at Louisville, which takes care of the loans for Kentucky, Ohio, Indiana and Tennessee, is not yet in operation, but should be within a very short time. A circular recently issued by the government said it is expected that the twelve banks of the country will be taking care of loans by the first of April.

THE CORNS-THOMAS COMPANY INCORPORATED.

The Corns-Thomas Engineering and Contracting company, Huntington; capital, \$25,000; incorporators: H. C. Corns and Reba L. Corns, Ironton, O.; C. C. Thomas, Imogene B. Thomas, and M. A. Brant, of New Martinsville, W. Va. The above item refers to H. C. Corns, who belongs to Louisa by marriage. He will have headquarters in Huntington. The firm already has some contract work. Mr. Corns is an engineer of experience, ability and high character. We wish the firm great success.

NEW RAILROAD BRANCH.

Whitesburg, Ky., March 5.—The construction of a three-mile branch of the Louisville & Nashville railroad from Kona Station, up the North Fork of the Kentucky River, in this county, will open an extensive coal field and, it is believed, will bring about an unprecedented wave of activity in that section.

It is stated that the L. & N. will build yards at Mouth of Colly, three miles above this city, in order to facilitate coal shipments, the yards at Neon being inadequate. Rumor has it that the L. & N. is considering the question of double-tracking the road from this city into the coal fields, a distance of about sixteen miles, during the summer. The road will take 250,000 tons annually from the operators around Hazard. This will, it is expected, be about one-fourth of the output for the year. Twelve or thirteen operators were included in the deal, which was closed by T. A. Horde, manager of the Hazard Coal Operators' Exchange.

In order to facilitate the heavy coal traffic in Eastern Kentucky, especially in the Elkhorn field of this county, the L. & N. will make many improvements, costing in the aggregate hundreds of thousands of dollars.

W. J. VAUGHAN AT ASHLAND.

Mr. W. J. Vaughan outlined the work planned by the state committee for 1917 in discussing "The State Program." Mr. Vaughan is an eastern Kentucky product, and has done more for this work than any other man in the state, and his life and effort has prevented those remote from this section from asking the question, "Can there any good thing come from the mountains of eastern Kentucky?" unless the desired answer is yes, for the person, life and effort of W. J. Vaughan is known in every county of Kentucky and is a rebuke to any one who would question the answer.—Independent.

SEE-JOHNSON.

Miss Mabel Johnson, of Narrows, Va. and Emmett See, of Bluefield, were married Sunday afternoon at 3 o'clock at the residence of J. M. McClure, 113 Prince-st., Bluefield, W. Va. Rev. T. S. Hamilton, pastor of Bland Street Methodist church, officiated. Mr. and Mrs. See will make their home in Bluefield.

Mr. See is a son of M. B. See, of Louisa. He is a young man of high character and good standing. The NEWS wishes the young couple a happy life.

KILL WEAK CHICKS.

Do not under any circumstances help chicks out of the shell. Chicks which do not have enough vitality to get out of the shell, either because of a lack of vitality in the egg or because of faulty incubation are not worth having.

Kill and burn all weak or crippled chicks as soon as the hatch is over. Weak chicks are always a menace to the flock.—Ohio State University College of Agriculture.

CARTER FOR HIGHWAY TERMS.

Carter county will agree to the terms of the Federal aid highway. The county was holding out against the stipulations, and citizens of Lewis and Green-up were seeking to get the road, which forms part of the Midland Trail as well as the east and west State highway, but the Carter county authorities notified Commissioner of Roads Rodman Wiley that they were willing to comply.

WOODROW WILSON IS OUR 28TH PRESIDENT.

Woodrow Wilson is the twenty-eighth President of the United States, reckoning Cleveland's two terms as separate ones because he was the only President serving twice who was not re-elected.

Virginia leads in the nativity of Presidents. Eight of her sons—Washington, Jefferson, Madison, Monroe, William Henry Harrison, Tyler, Taylor and Wilson—have held the highest office in the gift of the nation.

Ohio has given six native sons to the Presidency. They were Grant, Hayes, Garfield, Benjamin Harrison, McKinley and Taft.

Of all the vocations in life the law has furnished most Presidents. Nineteen Chief Executives of the United States were lawyers at the time they were elected. Three are classified as statesmen; two as soldiers, two as farmers, one as a public official.

Seventeen Presidents have been college men; one was graduated from West Point; nine had no collegiate education.

English paternal ancestry has predominated among all the Presidents. Fifteen were of English extraction. Six were Scotch-Irish, three were Scotch, two were Dutch, one was Welsh.

The youngest President at the time of inauguration was Roosevelt, who was 46. The oldest was William Henry Harrison, who was 68.

Of all the Presidents John Adams lived to the oldest age. He was 90 when he died.

MRS. DEFOE WAS GIVEN A FIVE YEAR SENTENCE.

Huntington, March 2.—Declaring she prefers prison to a year of suspense pending an appeal to the Supreme Court of Appeals of West Virginia, Mrs. Lula Defoe, who was yesterday sentenced to five years in the state penitentiary, by Judge T. W. Taylor in criminal court, is expecting to leave next week for Moundsville to begin serving her sentence. Judge Taylor on yesterday had granted a sixty-day stay of execution of Mrs. Defoe's sentence, pending notice of appeal by her attorneys, so that the prisoner's statement later in the day came as a surprise.

Mrs. Defoe says that her mind has become reconciled to paying the penalty imposed by the law.

P. J. FRASHER.

"A Lawrence county friend" hands in the following:
In honor of a young man, Paul J. Frasher, will say he is at present employed as a teacher in the Business College at Portsmouth, Ohio. Young Frasher is the son of Mr. and Mrs. U. G. Frasher, formerly of this county, now of Ohio. He is also president of the Young Men's League and superintendent of Bethel Chapel Sunday school in Portsmouth. He is a young man of unusual intelligence, 20 years old. Paul is the grandson of Capt. O. M. and Eda Frasher, deceased. Also, a relative of our high sheriff of Lawrence county. We hope more of our Lawrence county boys will follow his example. He was always bright and persistent in his studies and we are glad he is thus honored. Let us hear of more young men in the same rank.

FREE LECTURE.

On next Sunday night, March 11, at 7 o'clock at the Mt. Pleasant school house on Two Mile, Rev. L. M. Copley, of Ashland, will deliver a free lecture on "War and Religion." All are cordially invited to come and hear this helpful discussion in the times of trouble and apparent peril in which the world finds itself today.

WHOLESALE PARDONS

Gov. Hatfield Uses the Pardoning Power Recklessly at the Last.

Governor Hatfield closed his administration in West Virginia by pardoning a list of men making more than a column in the newspapers. The more important pardons from near-by points are as follows:

Robert Shad, McDowell county; first degree murder, released on parole.
William Childers, Logan county; first degree murder, released on conditional pardon.

Charles Cook, Ohio county; first degree murder, commuted to 18 years.
Charles Hunter, McDowell county; first degree murder, commuted to 18 years.

John Bayles, Cabell county; first degree murder, commuted to 3 years.
John Abbott, McDowell county; murder, life imprisonment, commuted to 15 years.

Floyd Stollings, Logan county; first degree murder, will serve 15 years from 1905.
Ben Streyer, Cabell county; murder, paroled.

James Duke, Cabell county; seven years for felony, pardoned.
Watt Spurlock, Logan county; carrying weapons, pardoned.
Billie Boson, McDowell county; felony, pardoned.

D. L. Epling, second degree murder, pard

NEWS OF GENERAL INTEREST FROM THE WORLD AT LARGE

TUESDAY.

In his inaugural address at Washington yesterday President Wilson declared "we may be drawn on by circumstances, not by our purpose or desire, to a more active assertion of our rights and a more immediate association with the great struggle itself." He declared America, "standing firm in armed neutrality," must demonstrate her claim to a minimum of right and freedom of action in world affairs. "America first" on many streamers aroused the multitude to frequent outbursts of patriotic fervor.

Few Kentuckians participated in the inaugural parade in comparison with the number taking part in former ceremonies. Great crowds held their places ten hours in a cold March wind to witness the pageant.

Ten members of the crew of the Coast Guard steamer Yamacraw were drowned Sunday night at Ocean City, Md. A boat containing nine coast guards responding to a distress signal from the American tanker Louisiana, which had grounded, capsized and all were drowned. A second boat, manned by two boys, launched in an attempt to rescue the other boat's crew, also met the same fate and one of the boys was drowned, the other floating ashore on a cask.

With the arrest of Fritz Kolb, a German, at Hoboken, N. J., and the finding of two bombs with slow fuses in his room, police believe they have frustrated a well-developed plot to aid Germany by blowing up munitions plants in this country. It was rumored that as a part of the alleged plot an attempt was to be made upon the life of President Wilson, but after investigation the police are of the opinion that no attack of this nature had been contemplated.

Both houses of the Ohio General Assembly passed resolutions criticizing Senators responsible for the defeat of the Armed Neutrality Bill. West Virginia's new Governor urged support of the President in the German crisis. Resolutions promising men and materials for defense were passed by the Legislature of Washington and the Governor of Missouri urged the consideration of defense measures.

Determination to arm American merchant vessels if it is legal to do so was indicated in Washington. The President has asked his legal advisers for a construction of certain old statutes which he feared might nullify his power to place weapons on ships and a decision may be ready by the time the Cabinet meets to-day.

A FEW FACTS ABOUT COUGHS AND COLDS THE PUBLIC SHOULD KNOW

Whether this Cold will prove a simple catarrh of the nose and throat or of but short duration and mild character; whether dread Pneumonia, with its sharp and fatal sting, shall be the sequence; or whether the blighting blast of the White Plague shall sit spectre-like upon its victim no one can foretell; hence the great importance of treating all colds, however mild, promptly and energetically. In urban populations the services of a skilled physician is always within call, but in rural districts, distance and inclement weather often act together to forestall the doctor's timely aid, so that valuable time is in this way lost. It was particularly for this latter class of sufferers that MEINHARDT'S GERMAN COUGH REMEDY was invented.

SOLD BY ALL DRUGGISTS.

Around Arras and near Ginchy British troops have carried out more successful raids, inflicting many casualties upon the Germans. Aerial activity along the French line has been marked, six German machines having been brought down Sunday and eight others forced to descend damaged. Operators are impeded in Russia by cold weather.

David W. Gray was elected exalted ruler of Louisville Lodge No. 8, B. O. E., at the annual meeting of the lodge which was attended by 200 members who stood and sang "America" after adopting a resolution pledging unwavering loyalty to and confidence in President Wilson—in peace or war.

The Hanover (Germany) Couriers, in a vituperative editorial abusing President Wilson, refers to the American people as dishonest, ignorant and bullying. Other German papers treat the revelation of the German plot as a "truly American" political maneuver by President Wilson to influence Congress.

Immediate suspension of hostilities by the Cuban revolutionists in the province of Oriente through a plan by which the Liberals would receive guarantee of free elections was forecast in cablegrams received in New York from R. Fernandez, military commander of Oriente.

It is stated that President Wilson will call an extra session of Congress to convene within a fortnight. Plans are on foot for a fight to change the rules of the Senate to prevent filibusters such as marked the last days of the session just closed.

Dispatches state that Berlin has sent wireless dispatches to former Ambassador von Bernstorff, asking him to explain how the Zimmermann note regarding Mexico and Japan came to be divulged.

YOU CAN'T FIND ANY DANDRUFF, AND HAIR STOPS COMING OUT

SAVE YOUR HAIR! MAKE IT THICK
WAVY, GLOSSY AND BEAUTIFUL AT ONCE.

Try as you will, after an application of Danderine, you can not find a single trace of dandruff or falling hair and your scalp will not itch, but what will please you most, will be after a few week's use, when you see new hair, fine and downy at first—yes—but really new hair—growing all over the scalp. A little Danderine immediately doubles the beauty of your hair. No difference how dull, faded, brittle and scraggy, just moisten a cloth with Danderine and carefully draw it through your hair, taking one small strand at a time. The effect is immediate and amazing—your hair will be light, fluffy and wavy, and have an appearance of abundance; an incomparable lustre, softness and luxuriance, the beauty and shimmer of true hair health.

Get a 25-cent bottle of Knowlton's Danderine from any drug store or toilet counter, and prove that your hair is as pretty and soft as any—that it has been neglected or injured by careless treatment. A 25-cent bottle will double the beauty of your hair.

WILDERNESS, W. VA.
We are having some very unpleasant weather at this time. Meadow river is 10 feet above the high water mark.

Silas Carter had the misfortune of getting caught in some of the machinery here in the band mill last Friday and he was very badly mangled. He received two broken ribs and his clothes were torn to pieces. Dr. Brown says he is improving slowly.

The Wilderness Lumber company's plant at this place has started up in full blast. The superintendent says he has not enough men to make a full crew as he expects to run his mill day and night.

Frank Bailey purchased two fine stock pigs from a farmer here and sent them to his brother at Hitchens, Ky. Jay Hackworth and Hill Jones have left for parts unknown.

B. F. Carter will soon leave for Great Falls, Mont., where he will spend the summer.

R. F. Bailey is contemplating a trip to Wadsworth, Va., to visit friends and relatives.

We understand that the Wilderness Lumber company has bought out the Hutchinson Lumber company at Sevy bridge and will run both mills full time.

The Sewell Valley train was blocked off three days on account of a large slide on the road, it being 30 feet wide and 12 feet deep.

R. F. Bailey and Mart McNight were transacting business at Miller one night last week.

J. E. Bailey of Hitchens, Ky., is expected to visit this place soon.

Roy Carter is attending school at this place. CONTRARY MARY.

CARD OF THANKS.
We desire to thank the people who assisted us through the death of our loving wife and mother. H. W. CASTLE AND CHILDREN.

Poor, helpless, hopeless, sick, suffering, miserable woman. Sick because she doesn't know any better. Sick because the organs that make her a woman are not properly performing their functions and so are sending nerve messages with aches and pains and distress all over her quivering body.

Nine-tenths of women's sickness comes from disorder of these special organs. The symptoms are various—the cause the same. Dr. Pierce's Favorite Prescription is the remedy for the headache, backache, nervousness, wakefulness, neuralgia and fifty other troubles of women which can always be traced directly to feminine weakness or disease. Thousands of women right here in Kentucky, after years of discouragement, have written to Dr. Pierce, Invalids' Hotel, Buffalo, N. Y., and now thank him for their renewed health and happiness.

It is a medicine devised to cure one certain kind of disease—female disease. It brings ease and comfort and sleep. It restores perfect health. It fills out cheek-hollows, brightens the eyes, puts vim and snap into the whole body.

It is a wonderful prescription prepared only from nature's roots with glycerine, with no alcohol to falsely stimulate. It banishes pain, headache, low spirits, hot flashes, dragging-down sensations, worry and sleeplessness surely and without loss of time.

Sick women are invited to consult Dr. Pierce, by letter, free. Address Dr. Pierce, Invalids' Hotel, Buffalo, N. Y. The modern improvement in pills—Dr. Pierce's Pleasant Pellets. They help Nature, instead of fighting with her.

SPRINGFIELD, OHIO.

Lindsey Sperry and Mrs. Mary Sperry are expecting to visit their parents in Kentucky soon.

Misses Dorothy Farrell of this city was calling on Mrs. Mary Sperry.

Mrs. Millor, who has been ill all winter, is improving.

Ada Burns, who has been visiting her husband in Kentucky has returned home.

We have been having some nice weather for some time.

Lindsey Sperry and Mary Sperry took a trip to Cleveland, O., last week.

Lindsey Sperry is still on the watch force at the International Harvester company.

The shops of this city are very busy. BLACK EYES & BROWN EYES.

YES! LIFT A CORN OFF WITHOUT PAIN!

Cincinnati authority tells how to dry up a corn or callous so it lifts off with fingers.

You corn-pestered men and women need suffer no longer. Wear the shoes that nearly killed you before, says this Cincinnati authority, because a few drops of freezezone applied directly on a tender, aching corn or callous, stops soreness at once and soon the corn or hardened callous loosens so it can be lifted off, root and all, without pain.

A small bottle of freezezone costs very little at any drug store, but will positively take off every hard or soft corn or callous. This should be tried, as it is inexpensive and is said not to irritate the surrounding skin.

If your druggist hasn't any freezezone tell him to get a small bottle for you from his wholesale drug house. It is fine stuff and acts like a charm every time.

OSIE.

One of the worst snow storms of the year visited here Saturday night. Timber is being broken down. Numbers of fruit trees are broken and ruined. The wet weather has made the roads almost impassable.

"Telephone as You'd Be Telephoned To"

TELEPHONE courtesy is just a bit of ordinary politeness and everyday kindness that we put into our conversation when we talk by telephone.

Its the face to face brand of politeness and kindness used when we're voice to voice.

It's the same politeness and kindness that we like to receive from the other end of the wire.

Giving a little thought to telephone courtesy and practicing its simple rules will make the telephone an even more efficient aid for you. "Telephone as You'd be Telephoned To" always.

"CASCARETS" BEST IF HEADACHY, BILIOUS, SICK, CONSTIPATED

BEST FOR LIVER AND BOWELS,
BAD BREATH, BAD COLDS,
SOUR STOMACH.

Get a 10-cent box.

Sick headache, biliousness, coated tongue, head and nose clogged up with a cold—always trace this to torpid liver; delayed, fermenting food in the bowels or sour, gassy stomach.

Poisonous matter clogged in the intestines, instead of being cast out of the system is re-absorbed into the blood. When this poison reaches the delicate brain tissue it causes congestion and that dull, throbbing, sickening headache.

Cascarets immediately cleanse the stomach, remove the sour, undigested food and foul gases, take the excess bile from the liver and carry out all the constipated waste matter and poisons in the bowels.

A Cascaret to-night will surely straighten you out by morning. They work while you sleep—a 10-cent box from your druggist means your head clear, stomach sweet, breath right, complexion rosy and your liver and bowels regular for months.

BLAINE.

(Arrived too late for last week's issue.) School is progressing nicely at this place with good attendance.

John J. Swetnam, formerly of this place, but for the last few years a resident of Jenkins died at his home last Saturday. His body was brought here for burial Tuesday and was laid to rest in the graveyard at M. M. Walters.

Funeral services were conducted by Rev. H. B. Hewlett of Louisa. He leaves a host of friends and relatives in this neighborhood. He was a good man and well respected by all that knew him.

G. V. Burton and wife of Terryville, were here Saturday. While here they bought E. C. Berry's farm about one-half mile above here. They are good people and we welcome them to our neighborhood.

FAMILY AVOIDS SERIOUS SICKNESS

By Being Constantly Supplied With
Theodore's Black-Draught.

McDuff, Va.—"I suffered for several years," says Mrs. J. B. Whitaker, of this place, "with sick headache, and stomach trouble."

Ten years ago a friend told me to try Theodore's Black-Draught, which I did, and I found it to be the best family medicine for young and old.

I keep Black-Draught on hand all the time now, and when my children feel a little bad, they ask me for a dose, and it flows them more good than any medicine they ever tried.

We never have a long spell of sickness in our family, since we commenced using Black-Draught.

Theodore's Black-Draught is purely vegetable, and has been found to regulate weak stomachs, aid digestion, relieve indigestion, colic, wind, nausea, headache, sick stomach, and similar symptoms.

It has been in constant use for more than 70 years, and has benefited more than a million people.

Your druggist sells and recommends Black-Draught. Price only 25c. Get a package to-day. N. C. 128

IN FIVE MINUTES! NO INDIGESTION, GAS OR SOUR, ACID STOMACH

THE MOMENT "PAPE'S DIAPEP-
SIN" REACHES THE STOM-
ACH ALL DISTRESS
GOES.

"Really does" put upset stomachs in order—"really does" overcome indigestion, dyspepsia, gas, heartburn and sourness due to acid fermentation in five minutes—that—just that—makes Pape's Diapepsin the largest selling stomach antacid and regulator in the world. If what you eat ferments and turns sour, you belch gas and eructate undigested food or water; head is dizzy and aches; breath foul; tongue coated; your insides filled with indigestible waste, remember the moment "Pape's Diapepsin" comes in contact with the stomach all such distress vanishes. It's truly astonishing—almost marvelous, and the joy is its harmlessness.

A large fifty-cent case of Pape's Diapepsin is worth its weight in gold to men and women who can't get their stomachs regulated. It belongs in your home—should always be kept handy in case of a sick, sour, upset stomach during the day or at night. It's the quickest, surest antacid for the stomach in the world.

OBITUARY.

Homer, the infant son of Mr. and Mrs. Milt Diamond was born Dec. 23, 1915, died Feb. 12, 1917, aged 1 year, 1 month and 20 days.

He leaves a father, mother, three sisters and two brothers to mourn the loss of a dear little son and brother. His death was caused by cerebral meningitis. He was sick only about two weeks. All was done that loving hands could do to relieve his suffering, but about four o'clock Monday morning the Master said, "come!" and his little spirit left its earthly house of clay and winged its way to that home where sickness nor suffering never enters. His funeral was conducted on Tuesday afternoon by Rev. H. B. Hewlett, after which his little body was laid to rest on a hill overlooking the home.

Weep not, dear parents, sisters, and brothers, although it was hard to part with little Homer. We know it will only be a little while until you can meet him again never more to say good bye.

When we see a precious blossom That we've tended with such care

Rudely taken from our bosom How our aching hearts despair. A FRIEND.

BATH OIL EXCITEMENT.

Owingsville, Ky., Feb. 20.—The excitement over the discovery of oil in the region near Olympia, southeast of this place, continues to grow. The hotels at Salt Lick and Olympia cannot accommodate the inflow of guests, and some of them come as far as Owingsville for lodging. As an instance of the eager demand for oil leases on land in the neighborhood is the experience of Miss Mary Pergram, who owned about two acres of land not far from the newly discovered oil wells. This land was almost worthless for agricultural purposes, and all the timber had been cut off of it. Miss Pergram had been trying to sell it for years and asked only \$100 for it. But an oil operator from the Estill county fields has just taken a lease on this small tract of land for one year for \$1,000, and if he does not develop it in that time he is to continue the lease at \$100 a year until he does develop it or it becomes evident there is nothing there to develop. Miss Pergram is also to receive one-eighth of the product should there be any. There have been other similar transactions.

A new well is being drilled on W. F. Dickerson's place in the town of Salt Lick. Other machinery is being brought into the field, and many wells will be sunk in the near future.

Operators who were successful in helping to develop the Estill county oil fields are especially enthusiastic in regard to the prospects of this new field, and many of them have secured leases and others are trying to get in on the ground floor. Arrangements have been made to sink wells at Wyoming, two miles north of Olympia.

SKAGGS.

G. V. Burton of this place has sold his farm to Mrs. Sena Hamilton of Red Bush, Ky. She is the wife of the late Rev. Hayden Hamilton.

Mr. Burton has bought a fine farm of E. C. Berry at Blaine. He and family will move there this week. We are sorry to lose such good people. They are honest and industrious people.

When Mr. Burton came to our community we had heard of telephones, but never thought it in our reach to have one in our home. But by the industrious effort made by him in the way of subscriptions he succeeded in getting a line from Blaine to Terryville, which has been a great comfort and blessing to our community.

As Mr. Burton and family have lived at Blaine before they will be glad to welcome them back.

We are pleased to have as good a woman as Mrs. Sena Hamilton move into our midst. She comes well recommended and we most heartily welcome her and her two boys to our neighborhood.

Link Ferguson and son Teddie, of Central, Arizona, are visiting his daughter, Mrs. Jesse Rose, and his two brothers, Ben and Dan Ferguson at Keaton. Mr. Ferguson went from this country some eight or ten years ago has made quite a success in his western home as he is now worth more than fifty thousand dollars.

Hargis Holbrook reached and passed his 85th milestone Feb. 21. The changes that have taken place in the world during the life of this good man are marvelous. We all extend to him our best wishes that he may live to enjoy many more years. PANSY.

Help!

There Was Mystery In the Call, but It Was Revealed at Last

By ALAN HINSDALE

I was living in a house which stood alone, though in a city. There was but one other house on the block. By block I mean the area inclosed by four streets. The streets in this case had been laid out, paved and curbed, but thus far there was but little building on them. The other house that I have mentioned faced on the street running parallel to the one on which I lived, and the rear part of the two houses were exposed to each other.

I had recently been admitted to the bar and had swung out my shingle. All day I sat in my office waiting for clients, but clients did not come. A young lawyer is more apt to hit upon clients outside his office than in it. I was destined to do so myself, but the way my first client came to me was by no means usual.

I had come to my room after business hours—it was a hall bedroom in the house I have described. I was boarding at the time and sat down by the window. It was springtime, and, though it was 6 o'clock, the sun was still high. The day was warm, and the window sash was thrown up.

The view was not attractive. Indeed, there was nothing for me to look at except the house on the other street, and I could only see the rear of that. I noticed that the window shutters on the third story were all closed, while those on the lower floors were open. While I looked a square, white substance—it was cardboard—was slipped between the slats and exposed to view. There appeared to be something written on it, but it was too far distant for me to see what it was. But I had a pair of opera glasses in my bureau drawer, and, getting them, I brought them to bear on the writing. There was the single word:

"Help!"

I had no sooner lowered my glasses than the cardboard was withdrawn. From this I inferred that some one had seen me at my window and had put out the message for me to see. But who this person was I had no knowledge.

Nevertheless I felt it incumbent on me to respond. But how? I could not communicate with the unknown. He or she could put out a message or a signal for me without its being seen by any one except me. If I put one out it could be seen by any one in the rear of the other house. The card would not have been thus displayed unless some one was in trouble. If held a prisoner or ill treated there must be others who were responsible for this. Surely it would not do for me to act openly in the matter.

By way of reconnoiter I concluded to go to the house with something to sell. I could at least see who would come to the door. With a few packages of court plaster I rang the doorbell. A woman, not a servant, answered the call. She had a disagreeable look on her face. Certainly it was not inviting, but repellent, with a bit of suspicion in it. I asked her if I could sell her some court plaster, and she declined very sharply, at the same time taking me in with her eyes from head to foot. Then it occurred to me that I was rather too well dressed for one reduced to such a beggarly occupation. However, the interview was cut short by her shutting the door in my face.

This tended to confirm my belief that some one was held under duress in the house. While I would not refuse to attempt to right a wrong, I have always had a fancy for minding my own business. But a lawyer's business is other persons' affairs, and it struck me that this matter might lead to professional work. So I concluded to follow it up.

Being young and inexperienced, it first occurred to me to break into the house legally—that is, armed with a search warrant or some other document issued by a court, but I was deterred from this by fear of making a fool of myself. Suppose my suspicions were incorrect, suppose some half-witted person was held in the house instead of being sent to an asylum, how would I appear if I interfered? No; I must first learn something of the conditions.

I resolved to go about it as if it had been a case of law. Some detective work must first be done, and I would have employed a detective except for two reasons—I had no money with which to pay him for his services and I had plenty of time to make the investigations myself. I began by taking position near the house in question and waiting for a delivery wagon to leave supplies there. Half a day was consumed at this before a meat market wagon stopped at the house. I refrained from asking the young man who took in the goods who lived there, for I could not do so without being seen by those in the house, and that would excite suspicion. But I noted the name on the wagon and the telephone number.

Going to my office, I called Kroeger & Co., the meat market firm, and asked if they would give me the name of their customer who lived at 110 Elm street. They replied after much delay that they had not been informed of the party's name; the transactions had all been cash. Then it occurred to me

to call "information" in the telephone office. I did so, but the office reported that at 110 Elm street there was no telephone.

My next move was to put some old newspapers in a pasteboard box with Edgar Washburn's name on it and send it to 110 Elm street by messenger. He was to ask if it belonged there and in any event ask if Mr. Washburn did not live there who did. He came back with the information that the person who had answered the bell had said that Mr. Washburn did not live there and when he asked the name of the resident the door was shut in his face.

Every afternoon at about 5 o'clock I showed myself at my window, looking for another message and having a card ready on which I had written in large letters, "What name?" One evening the card with "Help!" on it appeared again, and I at once displayed my own, but for a very brief period. I got no reply at the time, but the next morning before going out, as I stood at the window, a card was dropped between the slats with "Agnes Howe" on it.

Here at least was a beginning. The person requiring help was a woman, and I possessed her name. I felt sure that I could pull on this thread and get hold of something more. I consulted the directory and made a list of all the Howes listed there. No Agnes Howe appeared. I selected several Howes who might be of the better class and investigated them. One—the Howe estate—interested me, and, going to the office laid down, I asked for the names of the owners.

I was informed that the owner of the estate, James Howe, who had made a fortune in cotton, had recently died, leaving the estate in trust to his brother's widow, Ellen Howe, for James Howe's only child, Agnes Howe.

I had struck a bonanza, and struck it all at once. I refrained, however, from displaying the interest I felt in the matter, asking how I could collect a claim against Agnes Howe. I was told to file it at the office where I then was. Further information was given me that Agnes Howe was in poor health. She was living with her aunt, who was her guardian.

The next question for me to solve was what "poor health" in this case meant. Judging from the call for help, she was either a mental invalid or was being confined as such for some especial purpose. I had heard of cases where heiresses had been confined as lunatics or persons of feeble mind that some one else might keep control of their property, and it occurred to me that this might be one of these cases.

I concluded to act on this theory, and, assuming to be Agnes Howe's attorney, I drew up papers that would require her guardian to bring her into court. This led to an item in a newspaper stating that Miss Howe, heiress to the estate of her late father, James Howe, the multimillionaire, would be brought to court on a certain day by her aunt and guardian, who—so the legal documents had it—was keeping her in duress, for what purpose it was not known.

I was in for it and must see the matter through. In case my theory was wrong I would make myself a laughingstock. Nevertheless the appeal for help, the fact that the prisoner was an heiress, that she was supposed to be in bad health, all conspired to convince me that I was on the right track. Nevertheless I trembled, working on theory as I was, and with no actual proof of the correctness of my theory. Moreover, I was claiming to be Agnes Howe's counsel, while I had no other commission from her than a momentary sight of a card on which was written the word "Help."

When the day came round for the production of the body of Agnes Howe in court I found it necessary to summon all the assistance there was in me. I was in the courtroom when my assumed client entered in company with her aunt and guardian, an elderly lady, richly attired and with a cold, heartless expression of countenance. Miss Howe was a very pretty girl and evidently in robust health.

Near me at the lawyers' table was Samuel Graves, an attorney whom I knew. I wondered what he was doing there. I was not long in finding out. I was endeavoring to improvise some way of opening my case when this attorney arose and said:

"May it please the court, I represent the interests of Robert Ainsworth in this case, the husband of Agnes Howe." There was a hum of astonishment in the court, Miss Howe's guardian being as much amazed as any one else.

"Robert Ainsworth being a suitor for the hand of Agnes Howe, she was removed from him and the world and has been kept in seclusion. It was not known to the guardian that he had secretly married her ward, and he has been ignorant of the place of his wife's detention. Learning that she was not apparent—he retained me to gain for him the control of his wife as her husband."

I was thus left out of the case, and, although my theory had been incorrect, I was saved from humiliation. A conference took place between those primarily interested, and the guardian, who had endeavored to prevent a marriage of an heiress with a poor man, her ward having been wedded, gave up the struggle. The husband, a young naval officer, was permitted to take away with him his bride, and the episode was ended.

Mrs. Ainsworth before leaving court called for me to be presented to her and thanked me for the part I had taken in gaining for her her freedom. She took my address and soon after receiving her property sent me a check for a fee which set me up in my profession and resulted in a fortune. I have ever since my efforts in her behalf been a prime favorite with her and her husband.

A Woman Hater

He Found That He Was Unable to Withstand the Sex

By F. A. MITCHEL

Being left an orphan at the age of fifteen years, I was adopted by a brother of my mother who was a bachelor and quite wealthy.

When I say that my uncle was a woman hater, in justice to him I must state his reasons for being so. He had had a twin brother whom he loved better than he loved himself. They were named Theodore and Edwin and called for short Ted and Ned. Ted was the one by whom I was adopted. When Ned was twenty-two years old he married, first making a stipulation that his brother, Ted, should have a home with him and his wife. This was agreed to by Mrs. Ned, who treated Ted with as much sisterly affection as if he were her own brother instead of Ned's.

But Mrs. Ned did not propose that any one should interfere in the slightest degree with her influence over her husband. She well knew the affection between twins and determined that Ned should throw off his brother's influence in favor of her own. The wedding ceremony over, she put into practice her plan for doing this.

As soon as the couple returned from their wedding trip Ned sent for his brother to settle himself in the new tripartite home. Ted did so, but remained there just one week. His sister-in-law intimidated to her husband that Ted had attempted to make love to her. But Ted should convince his brother of the falsity of the accusation she pledged Ned not to mention the matter to him. She would not for the world make trouble between the twins. Let it pass. Perhaps it would not occur again.

Ned yielded to his wife in the matter, but, of course, turned the cold shoulder to his brother. Ted, not knowing the cause of the coldness, but feeling that his brother's house was no place for him, took himself elsewhere.

For ten years the brothers were estranged. Then Ned died. His wife had boasted to a friend how she had secured the undivided affection of her husband, and that friend told Ted.

Ted had realized that his estrangement from his brother had come through his brother's wife, but was unprepared for such a revelation. What shocked him especially was that a woman should consider any such means of gaining her husband's entire submission a legitimate and brilliant move. From the time of leaving his brother's house Ted eschewed the society of women, and when he learned after his brother's death how that brother had been made to condemn him unjustly he became a woman hater.

Such was the condition of my uncle when I went to live with him. I had not been long in his house when he one day took me into his study and said to me:

"My boy, I think you are old enough to understand what I am about to say to you. I possess a valuable property, which I propose to hand down through you to others, who, it is my intention, shall be men. I shall make you my heir, stipulating that you shall bind yourself not to marry. In other words, you will hold my estate in trust for whomsoever you may decide to leave it, provided that person be a male. In this way I intend to keep any woman from ever having any benefit of my fortune."

I had not at this time been informed of my uncle's opinion of the softer sex or the circumstances that had made him a woman hater. I asked him why he proposed to keep any woman from enjoying his estate. He gave me a lecture which I shall never forget. Beginning with the belief of earlier races of men that women do not possess souls, he traced their gradual rise till in modern times they have usurped positions formerly occupied by men. He predicted that they would eventually dominate men, who would possess the same relations toward them as they had in ancient times held toward men. He attributed this change in the relative position of men and women to women being superior to men in all forms of duplicity.

Of course I was affected by this reasoning, but not sufficiently to cause me to shun girls. The young rather love than fear danger, and the fact that I was educated to believe that the devil lurked in the bosom of every maid only rendered the more attractive to me. I remember looking at a bevy of schoolgirls about fifteen—the age when women is, to my thinking, a thing of beauty if not a joy forever—and wondering if, indeed, they had been born without souls. If they were devils they were certainly very attractive devils. Then one day I was walking behind one of these creatures, who was carrying a lot of books. Several of the volumes slipped through her arms and fell on the pavement. Perhaps it was Satan that prompted me to pick them up for her. At any rate, I did so, and when she turned a pair of robin's egg eyes up at me and gave me a smile I felt a delicious sensation steal over my whole being. If the devil was in those lips I was ready to sell my soul to him for one kiss.

I have not room to tell how this girl—Alice was her name—a mere chit, trampled under her silken sandals

foot all the axioms that my uncle had instilled into me. She might be a devil, but to me the fact that this devil was incensed in a very attractive body made it all the more acceptable to me. Now, this girl was really a devil, and I am going to tell you how she proved herself one.

When we came to that period in a courtship where a couple can sit side by side from 7 o'clock in the evening till 8 in the morning I told Alice all about my woman hating uncle. By this time he had given me a full account of how he had been ruined in his brother's affection by a designing woman, and I gave Alice the story. She seemed much interested, much incensed, against the "horrid thing" who had so foully misrepresented her sex.

Meanwhile I had given my enchantress to understand that I was to inherit my uncle's estate in trust for the next man to inherit it after me, and that I could only do so by giving a pledge that I would never marry. Alice could not very well object to this till after I had come so far under her influence, or the devil within her, as to resign a fortune for her. She was willing to take me with the fortune and, being still quite young, declared that she would take me without it. But she admitted that it would be a great deal nicer if we could inherit my uncle's wealth. The mix had conceived a scheme for getting that fortune, but she said nothing about it to me.

My affair drifted on till I was of a proper age to be married and Alice was a grown woman. Since I had determined to put my head in the lioness' jaw I was in a desperate hurry to do so. But Alice was in no hurry at all. She kept putting me off till at last I told her that I believed she was fooling me and would not marry me at all. I gave as a reason that she wanted my uncle's fortune as well as myself and she would not take me without it.

I can never forget that beautiful, reproachful look she gave me. It seemed that I had touched a sensitive plant and had blighted it. I caught her in my arms and implored her forgiveness. She forgave me.

But our wedding was not a whit nearer than before.

It was about this time that I began to notice a change in my uncle. His tirades against women were less frequent. He surprised me one day by saying that if a man could capture one of these creatures young and train her to a sense of honor such as is inherent in a man she might be changed, as a wild cub is changed, to domestic uses.

"How young, Uncle Ted," I asked, "do you think it necessary to begin with a girl?"

"That I don't know. Perhaps eighteen would not be too late," was his reply.

It seemed to me as if my uncle had been tamed at the age of forty-six, for every day I noted some new evidence that he was becoming a domesticated animal. Then there came a period when he seemed very ill at ease with me. Up to this time he had been very chummy with me. Now he would sit at table reading his newspaper, and in the evening when we had smoked at home or gone out to a play together he would either go to his room to read or would go out alone. One morning I saw him going into a flower shop. What business he had there I did not know, and I was not of sufficiently small caliber to try to find out. No flowers came to the house. No woman hater could be sending them except to a funeral, and I was not aware that any of my uncle's relatives or friends had died.

One morning after breakfast my uncle took me into his study and said that he had a very important communication to make. After great hemming and hawing and getting very red in the face he began:

"I have adopted you and led you to expect that on certain conditions you will inherit my fortune. Circumstances have somewhat changed this intention. You will remember that I have said to you that if a woman could be caught young she might be tamed and turned from a devil to something that could be lived with. I have decided to try this plan. I am about to marry a young woman, a woman twenty-five years younger than myself. But I will not disappoint you. I will on the day of my wedding settle on you a third of my estate without conditions. If I have no children you will eventually get the whole."

I was relieved and delighted. A third of an estate was far better than none, and if my uncle had adhered to his original intention I would get nothing unless I resigned Alice. I congratulated my uncle, and from that moment we were again in perfect rapport. I asked him when I should be introduced to his fiancée, and he told me that she would dine with us the next evening.

At 6 o'clock on the appointed evening my uncle and I were in the drawing room waiting. A carriage stopped at the door, the maid answered the summons and a lady stood before us. She was Alice!

While my uncle and I were much embarrassed, I especially so, she was as cool as if she had not

The United States first! Also, last and all the time!

There are cases of treason that are not reached by present laws.

The Kentucky Legislature in scathing terms denounces the Senators who refused to stand by the United States.

President Wilson was inaugurated Monday for his second term, with appropriate ceremonies and amidst great enthusiasm.

Congress passed a law to make Washington city "bone dry." Let the good work go on. National prohibition has almost arrived.

If the Benedict Arnolds and Judas Iscariots should be driven out of Congress, as they deserve to be, they can go to Germany and get a job in the Reichstag.

La Follette had an engagement to speak at Wheeling, W. Va., March 8th. Following his traitorous action in the Senate the Wheeling people wired him not to come. Legislatures throughout the country are adopting resolutions condemning the dirty dozen.

President Wilson issued a long and stinging statement about the matter. "A little group of willful men," says the President in his statement, "representing no opinion but their own, have tendered the great government of the United States helpless and contemptible."

Germany admits the authenticity of the message seeking to induce Mexico and Japan to join her in war on the United States and tries to justify herself like she does her every other vile act—that everything is fair in war times. Senator Stone demanded that President Wilson show him the authenticity of the Zimmerman note. Hope he is now convinced that the President knows what he is doing.

The bitterest condemnation ever heaped upon members of the United States Senate is now falling upon the heads of the dirty dozen who disgraced and humiliated this country last Saturday and Sunday. Only the newspapers printed in the German language endorse their action.

Senators Stone and LaFollette are lauded by the German press comments

as representatives of the "best spirit in America," according to dispatches received from Germany summarizing German editorial views on the Senate.

They are welcome to all the consolation they can get out of Germany's endorsement.

Naval officers and administration officials are incensed at Senator Stone's disclosure in the Senate debate that the navy had planned equipping merchant ships with light swift submarine chasers to guard them against submarines in the prohibited zone.

They regarded it as fortunate that more of their plans had not been disclosed in the heat of the Senator's opposition to the armed neutrality bill, but were chagrined that so much had been said, especially in view of the fact that the Senate only recently, at the request of the military department, passed a bill making it a crime to publish the government's secrets.

After July 1st it will be a serious offense to ship liquor into a dry territory, under a law passed by Congress. This is a great step forward for prohibition.

The bill, as passed, contains the following:

"Whoever shall order, purchase or cause intoxicating liquors to be transported interstate commerce," the amendment stipulates "except for scientific, medical or mechanical purposes, into any state or territory prohibiting the manufacture or sale therein of intoxicating liquors for beverage purposes, shall be punished by a fine of not more than \$1,000 or imprisonment for not more than six months, or both, and for any subsequent offense shall be imprisoned not more than one year."

The member of Congress or the citizen who criticizes the President's course in the present crisis comes mighty near being a traitor. No greater encouragement can be given to Germany in her acts of infamy. It is a time when a solid front should be presented to the world. If President Wilson cannot be trusted to be fair and conservative, yet firm, after four years of the most strenuous history, then we must conclude that no man is worthy of trust. It would be most unwise to make public all the information acquired by the President and his cabinet, but there are some politicians and a few self-important fellows like Senator Stone of Missouri, who insist upon having it all told, especially to them. They are thus encouraging Germany to continue the depredations which will force the United States into war. It is refreshing to see that the Missouri Legislature has adopted a resolution demanding that Stone stand by the President.

That fool rule in the Senate which forbids limiting debate made it possible for a dozen traitors to prevent the alleged "greatest deliberative body in the world" from taking a vote on the most important measure that has been before Congress in fifty years. Notwithstanding the well known fact that 500 out of 531 members of the two houses of Congress favored the passage of the bill, and that practically

every loyal citizen in the United States wants it, this little bunch of despotic traitors blockaded action. Germany will regard it as an indication that the United States will not defend her rights, and she will extend her depredations to a point where war will be absolutely forced upon us. The people of the United States, by mass meetings and letters and telegrams should force the Senate to abolish that rotten rule, which has given ruinous power in a great crisis to such unworthy and un-American fellows as La Follette, Stone, etc. Without this rule they could have voted against the bill and thus have sufficiently disgraced themselves, but they could not have throttled an overwhelming majority by preventing the bill from coming to a vote.

THE NATION'S DISGRACE.

Last Sunday twelve Senators took advantage of a rule of the Senate and refused to allow that body to vote on the bill asked for by President Wilson, giving him authority to arm for defense our merchant vessels that desire to use the high seas for carrying goods not contraband of war and not in violation of international law. The House had already passed the bill by an overwhelming majority and the Senate desired to do the same thing. La Follette of Wisconsin, Republican tool of the brewers of Milwaukee and of the disloyal German element in his State, prevented a vote until Congress died at noon of March 4th. Stone, Democrat, doing the bidding of the big German brewers and colonies of Missouri, played traitor to his country. A few others joined them.

Nothing so injurious or disreputable has ever before occurred in Congress. If war comes it will probably be due to this act on the part of these high officials who are supporting Germany in this crisis.

To fix the responsibility before the country, 76 Senators, 30 Republicans and 46 Democrats, signed a manifesto proclaiming to the world that they favored the passage of the measure.

This declaration, embodied in the record of the Senate, referred to the fact that the House Thursday night had passed a similar bill by a vote of 403 to 13 and also recited that the Senate rule permitting unlimited debate gave a small minority opportunity to throttle the will of the majority.

Here They Are.

Republicans—Clapp, of Minnesota; Cummins, of Iowa; Gronna, of North Dakota; Kenyon, of Iowa; La Follette, of Wisconsin; Norris, of Nebraska; Works, of California.

Democrats—Kirby, of Arkansas; Lane, of Oregon; O'Gorman, of New York; Stone, of Missouri; Vandaman, of Mississippi.

HIGH-PRICED KENTUCKY CATTLE

The sale of 307 head of export cattle produced in Montgomery-co., at an average of \$124 a head, indicates that the cattle raisers in Kentucky are sharing in the benefits of high prices incident to the European war. The fig-

ures quoted are those received by a cattle buyer who disposed of \$38,000 worth of beef cattle. But allowing the buyer a fair margin of profit, such as buyers contrive usually to get, the farmers who pastured and fed the animals must have realized handsomely upon their grain and forage.

A great deal of good cattle country, especially in the foothills of the mountains, is a neglected resource which ought to be producing good returns. The high prices for food animals which have attracted general attention this autumn should stimulate grazing where the land still is low priced and the pasturage abundant. Kentucky is not producing anything like the number of cattle a State so situated, and with such advantages of climate and soil, should market. Many farms need cattle for their fertilizing value, and where feeding can be done profitably the actual profit is larger than the obvious and immediate dollars and cents profit, because the farm on which more is fed than is grown is being built up, while that on which more is grown than is fed is being run down.

There has been for some years complaint that despite the much-talked-of American shortage of most animals farmers have not received good prices, and have not been encouraged to raise animals for the market. The prices realized this year are such that no complaint of that kind can be made, and when the farm building value of stock farming is considered the complaint was perhaps never reasonable as it seemed to those who left out of consideration that important factor—Courier Journal.

DIDN'T TAKE IT.

"I am delighted to meet you," said the father of the college student, shaking hands warmly with the professor. "My son took algebra from you last year, you know."

"Pardon me," said the professor, "he was exposed to it, but he did not take it."—Christian Register.

THE UNIVERSAL CAR

Have been built and actually delivered to retail buyers since August 1, 1916. These figures—320,817—represent the actual number of cars manufactured by us since August 1st, 1916, and delivered by our agents to retail buyers. This unusual fall and winter demand for FORD cars makes it necessary for us to confine the distribution of cars only to those agents who have orders for immediate delivery to retail customers, rather than to permit any agent to stock cars in anticipation of later spring sales.

We are issuing this notice to intending buyers that they may protect themselves against delay or disappointment in securing FORD cars. If, therefore, you are planning to purchase a FORD car, we advise you to place your order and take delivery now.

IMMEDIATE ORDERS WILL HAVE PROMPT ATTENTION.

Delay in buying at this time may cause you to wait several months. Enter your order to-day for immediate delivery with our authorized FORD agent listed below and don't be disappointed later on.

without effort? Long before manhood's prime you will miss the top and go down hill. Arouse for another effort. At the base is the thorn, at the summit the crown. There is no escape from the one or the other in the life journey. Which will you have, wealth or poverty, comfort or sorrow? Decide in the dew of morning.

At high noon stand out a man on the peak of endeavor wearing your own crown.

That the churches in any community exercise a most potent influence for good is conceded by all except the most rabid or blatant infidel whose egotism and self-conceit blind his mind to the inestimable value of Christianity. But to what extent are the churches valuable in this community? The Galilean teacher said of His disciples: "Ye are the light of the world." Hence, if all His disciples are the light of the world and the salt of the earth, the logical as well as the scriptural conclusion is that they are the light of the community in which they live. These declarations, however, do not preclude the possibility of the light going out—being hid under a bushel—or the salt losing its saltiness. But certainly no reasonable or fair-minded persons would accuse the churches of being wholly composed of united hands of hypocrites for it matters not to what extent sin, in its many forms, may pervade the ranks of any church, you will find within its membership, consecrated men and women. And it should be borne in mind that it only requires a few of the above-mentioned class to become the light of the community.

Take the trouble to get well acquainted with your children, and to interest yourself in their pastime, etc. By this means they will learn to trust and confide in you, and are not easily led away by outside influence.

Stirring up bitterness in a neighbor's heart is never profitable or pleasant.

The person that has wiped wet eyes, moistened parched tongues, put a new star in the sky of a dark life, added beauty and bloom to the song of birds and the blossom of flowers to the lot of another is—whether he be rich or poor, known or unknown, bound or free—one of God's nobility.

It doesn't pay to gossip about one's neighbors. Let us have only kind thoughts and good words for every one, and be sure to lend a helping hand whenever occasion calls for it. In trying to lighten another's burden, we forget our own; and the kind thoughts we send out come back to us like echoes.

Young man, remember this: All the friends who can gather about you can never make your life a success; neither can your enemies make it a failure. It rests with you to determine whether you shall succeed or fail. Just put your thought on your memoranda, and study it carefully.

ANOTHER SNOWFALL.

About seven inches of snow was deposited on the ground Saturday night. It packed on the trees and on the wires of telegraph and telephone lines to such an extent that many were broken down. The temperature became lower on Sunday and froze the snow deposits, so that they remained on the trees throughout Sunday and Monday. Presenting a beautiful winter scene. The last four days of February looked and felt very much like spring, the thermometer rising to 72 degrees. The maple buds swelled almost to the bursting point, but this winter spell has nipped them. More snow has fallen here this winter than for a number of years before.

THE PURE BRED SIRE.

In 1889 a LaCrosse county (Ill.) farmer decided that his ordinary beef and milk cows were not paying, and so he purchased the best pure bred sire he could get of the breed desired and mated him with his herd, which was of mixed breeding. By keeping careful records he found that the cows resulting from the first cross produced the first year, on the average, 212 pounds of butter fat. By continuing the use of a pure bred sire of the same breed he increased this amount to a 268 pound average at the end of the ninth year. In 1913 in his herd of twenty-five milking cows none produced less than 400 pounds of butter fat and several produced 600 pounds.

SOY BEANS FOR THE SOUTH.

Belief That This Legume May Be Profitably Rotated With Cotton.

The department of agriculture and the various state experiment stations are conducting wide experiments to discover the various forage crops best suited to conditions in the southern states, says the Home and Farm. The soy bean is now the subject of thorough experiments in various sections.

While the bean may be grown throughout the humid and semihumid sections of the south and in the southern portion of the corn belt, it thrives especially well in the cotton growing regions. For this reason it offers an excellent opportunity to the cotton planter for adjusting his farm plans to offset the damage to cotton inflicted by the boll weevil.

From the farmers' point of view the existence of the many oil mills in the south and the probability that by furnishing a demand for soy beans these concerns will make the legume an important cash crop should greatly facilitate the introduction of the new product on a commercial scale. Soy beans

SOY BEAN PLANT.

should be of additional interest to farmers since, as in the case of other legumes, their culture improves the soil.

As a pasturage crop this legume is rich in protein and is particularly suited for pasturing hogs, especially so when the beans are grown for soil improvement. When the plants are young and tender the hogs will practically eat the whole of the plant, but after they become mature and hard and woody they will not be eaten so readily. By planting the same variety at different dates or by using varieties with different dates of maturity the grazing may be extended over a considerable period. Although this crop is chiefly used for pasturing hogs, all other kinds of live stock may be pastured on it if desired.

Salt For Dairy Cows.

From one to two ounces of salt daily, in accord with the amount of milk produced, is sufficient to meet all requirements of a dairy cow on rations of ordinary feeds, according to Dr. E. B. Forbes of the Ohio experiment station. In nutrition studies with cows milking as much as forty-five pounds daily and fed common feeds he found that one ounce of salt a day satisfied the cow's needs.

To Keep Up a Good Milk Flow.

To keep the cow persistently in milk always milk rapidly and see that every bit of milk is taken each time. It does not pay to turn the milking over to careless and inexperienced hands.

CHICKEN CHATTER.

A few thorough applications of crude petroleum to the interior of poultry houses will destroy completely the common red mite infesting chickens.

Notwithstanding that many good breeds have been imported, the fact remains that not one of them can be classed with our American production. After plowing and before seeding turn the poultry in on the freshly turned up earth.

Use good, vigorous breeding stock. Remember that a weak chick in most cases can be traced to poor breeding stock.

As to poultry diseases, folks are to blame for most of the trouble encountered in that direction.

THE HOME CIRCLE AND ITS INTERESTS.

Column Dedicated to Tired Mothers as They Join The Home Circle at Evening Tide.

Why Is It?

As we passed along the street on a recent Sunday we counted twenty-seven young men, most of them in their teens, just budding into manhood, loitering their time away. As we looked into their faces, many of them lighted up by the beacon rays of a poor cigar or the pernicious cigarette, we recognized them as young men blessed with comfortable homes, indulgent parents and loving sisters. We ask ourselves why is it? Why do these young men prefer the unclean resorts, comfortless streets and mixed society, to the upholstered chair, the pleasant and comfortable surroundings of the family circle at home? Who can answer? Dare we charge the parents in a degree responsible for this state of affairs? Are these things as they would have them? Do you shut up your homes lest the sun should fade the carpets, and your heart least a laugh should shake down a few of the musty old cobwebs that are hanging there? If you want to ruin your sons let them think that all social enjoyment must be left at the threshold when they come home. When once a home is regarded as only a suitable place to eat, drink and sleep in,

the work is begun that ends in gambling houses and reckless degradation. Better let the fire burn brightly in the winter, the doors be thrown open in summer, and make the homestead delightful with all those little arts that parents so well understand. Half an hour of merriment within door, and merriment of a home blots out the remembrance of many a care and annoyance during the day, and the best safeguard that can be taken with them in to the world is the unseen influence of a bright little home sanctuary. Let parents ponder over these few suggestions.

We often wonder why it is so many young men can be seen loafing upon our streets until a late hour of night. Many of them are from our best homes. The fathers of these young men, many of them at least, are numbered among our best citizens. If their cow or their horse or even their favorite dog was away from home after dark they would be out on a search for it, but their own children can roam the town all night with apparently no effort being made to find them.

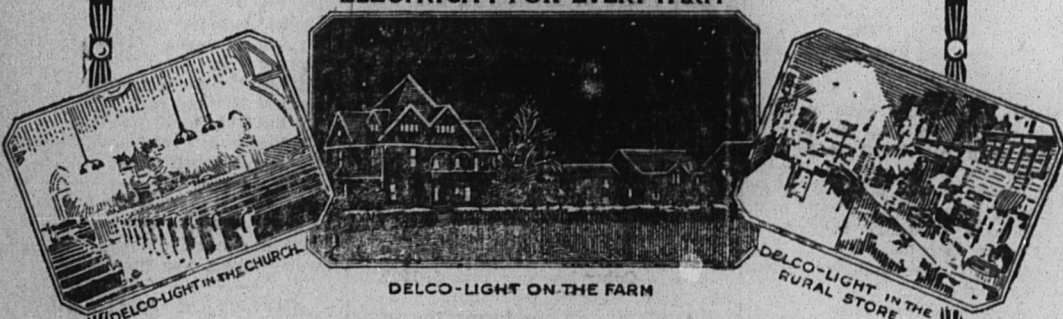

Life's Journey.

For every life there is a summit. Happy are they who gain it and sad the lot of those who faint and fall in the struggle. Short or long to the top, it can only be scaled by persistent climbing. There must be ambition to do and dare, or the prize will not be secured.

Have you in the vigor of youth begun the journey? Already are you tired and weary? Are you resting by the way in slothful indulgence, hoping for wings or sails to bear you aloft

DELCO-LIGHT

ELECTRICITY FOR EVERY FARM

DELCO-LIGHT MAKES ELECTRICITY UNIVERSAL

For the first time electric light and power are available to anyone—anywhere. Heretofore, the benefits of electricity have been confined to those who live in the larger towns and cities. Now Delco-Light makes electric current universally available.

Delco-Light is today furnishing thousands of farm-houses with brilliant, convenient, safe and economical light. It is furnishing power to operate pumps, washing machines, churns, cream separators, milking machines, vacuum cleaners, etc. It is lighting country churches, stores and public halls. It is furnishing light and power to summer homes and camps, 49 houseboats and yachts, etc.

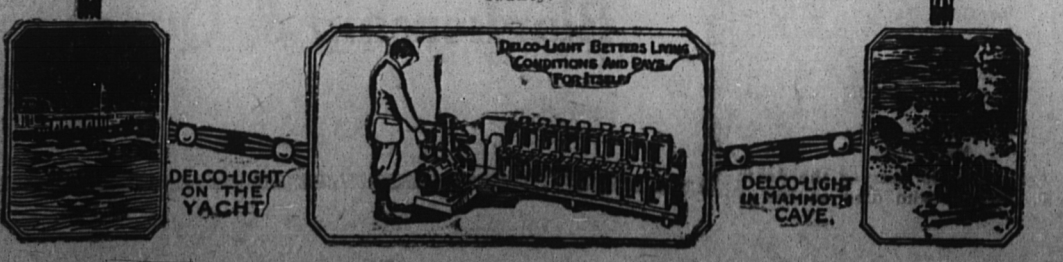

It is lighting rural railway stations and construction camps. It is lighting the camps of United States troops on the Mexican border and it is disclosing heretofore undreamed-of beauties in the depths of Mammoth Cave, Kentucky. Altogether, over 15,000 Delco-Light plants are in operation, and Delco-Light offices are to be found in almost every part of the world.

Delco-Light is a complete electric plant—the engine and dynamo in one compact unit combined with a set of specially built and wonderfully efficient batteries for the storing of current. The plant is so simple a child can care for it, and so economical that it actually pays for itself in time and labor saved. It operates on either kerosene, gasoline or natural gas.

ULYSSES.

There are still a great many cases of measles here.

Aunt Bettie Pack, aged 70 years, and wife of Wm. Pack of this place, died recently of dypsis. She had been an invalid several years.

James Morrison, Sr., accidentally hurt himself pretty badly yesterday while working in his new ground.

An infant child of Lewis Brown died of convulsions last Saturday.

Mrs. Robert Miller is seriously ill of grip. All is being done for her that can be done, but she is still unimproved.

Attorney L. W. Hatfield has a bad case of grip.

Mrs. Edith Ward of Douglas, Perry county, Ky., is here visiting relatives.

Mrs. Frankie Debord of Beaver is the guest of her parents at this place. **EUREKA.**

LOOK AT A CHILD'S TONGUE WHEN CROSS, FEVERISH AND SICK

TAKE NO CHANCES! MOVE POISONS FROM LIVER AND BOWELS AT ONCE.

Mothers can rest easy after giving "California Syrup of Figs," because in a few hours all the clogged-up waste, sour bile and fermenting food gently moves out of the bowels, and you have a well, playful child again. Children simply will not take the time from play to empty their bowels, and they become tightly packed, liver gets sluggish and stomach disordered.

When cross, feverish, restless, see if tongue is coated, then give this delicious "fruit laxative." Children love it, and it can not cause injury. No difference what ails your little one—if full of cold, or a sore throat, diarrhea, stomach-ache, bad breath, remember, a gentle "inside cleansing" should always be the first treatment given. Full directions for babies, children of all ages and grown-ups are printed on each bottle.

Beware of counterfeit fig syrups. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," then look carefully and see that it is made by the "California Fig Syrup Company." We make no smaller size. Hand back with contempt any other fig syrup.

There will be church at Sandhill the second Saturday night and Sunday by Rev. J. H. Thomas and also on the fourth Sunday by Eli Roberts and others.

Doesn't it make your face light up with joy when you see a smile of delight on the face of some little child? or to hear its musical laughter when it bursts forth in childish mirth? Do not your eyes grow dim with misty tears when you see some little child in ecstasy because of some pretty little gift from father or mother, or some big uncle? It makes our memories go back to those other days, the days of long ago when our own little brothers and sisters, (and we perhaps too) were delighted immeasurably by the little trinkets and tender words from our loved ones in the grown up world.

Childhood is a plastic age. Manhood and womanhood are developed by many and womanly examples and by tender and sympathetic words and deeds. Then does it not behoove every man and woman to so live that the little baby feet who are toddling behind us

COUNT FIFTY! PAINS AND NEURALGIA GONE

INSTANT RELIEF! RUB THIS NERVE TORTURE AND MISERY RIGHT OUT WITH "ST. JACOBS OIL."

Rub this soothing, penetrating oil right into the sore, inflamed nerves, and like magic neuralgia disappears.

"St. Jacobs Oil" conquers pain. It is a harmless "neuralgia relief" which doesn't burn or discolor the skin.

Don't suffer! It's so needless. Get a small trial bottle from any drug store and gently rub the "aching nerves," and in just a moment you will be absolutely free from pain and suffering.

No difference whether your pain or neuralgia is in the face, head or any part of the body, you get instant relief with this old-time, honest pain destroyer—it cannot injure.

YATESVILLE.

The worst blocked up spell of weather that we have had for several winters struck us last Saturday night.

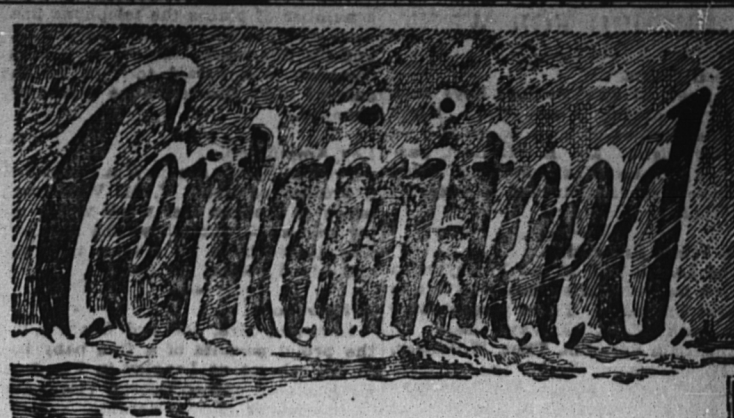

In the first place our road was already impassable and in the next place a mixture of snow and rain began to fall late Saturday evening and the falling snow gained fast enough to be about ten inches deep on Sunday morning leading a great many apple trees with snow beyond what they could bear of weight, resulting in the destruction of a great many of the trees throughout our section of the county.

Another very bad result of the snow storm is a badly crippled telephone system. A great many of the lines being broken and several of the poles down. The word among some of the folks here is that Louisa, Yatesville and several other points are unavailable to or from each other. Another result is the condition of our public roads. Our mail service is terribly crippled owing to the condition of our roads, it being impossible for our carriers to make schedule time. It seems that our roads should be in much better condition as this is the main time of the year that the roads are built and put in shape by a great many people, who scribe along with the rest. It is no trouble at all to make roads, as some of us make it, in the store around the good warm stove, or by some good warm fire-side. A fine way to make road is on paper.

COUNTRY GREENHORN.

CERTAIN-TEED stands out conspicuously for quality, satisfaction, and economy. Any product bearing the name **CERTAIN-TEED** will measure up on all of these points. These are cold facts.

Certain-teed Roofing

is the efficient type of roof. It is suitable for factories, office buildings, farm buildings, etc. For residences it is made in slate surfaced shingles.

CERTAIN-TEED costs less to buy, less to lay, and less per year of life. **CERTAIN-TEED** is light weight, clean, sanitary, and fire retardant. It will not dry out and is weather-tight.

It is made in three thicknesses—but only one quality—the best. It is guaranteed 5, 10 or 15 years according to thickness (1, 2 or 3 ply).

This guarantee is backed by the largest manufacture of prepared roofings and building papers in the world.

If you are building, or need a new roof, it will pay you to investigate **CERTAIN-TEED** before deciding upon any type of roof. For sale by dealers, everywhere.

Certain-teed Paints and Varnishes

are good, dependable products made by expert paint men, and guaranteed to give satisfaction. They are sold at a price which would not be possible if we depended upon an exclusive paint organization to market our product.

The enormous resources of **Certain-teed Products Corporation**, and its extensive organization for distribution of **CERTAIN-TEED** products, make it possible to take advantage of every economy in buying, manufacturing and selling.

Even the professional painter can afford to use **CERTAIN-TEED** paints rather than to mix his own. Uncertainty is eliminated, waste and left-overs avoided, and quality is assured.

Whether you do your painting or employ a professional painter, your interests will be best served if you insist on **CERTAIN-TEED** paints and varnishes.

PIKE COUNTY NEWS

Miss Mary Crawford delightfully entertained the Arachne Club on Saturday afternoon at her home on Derrianna Heights. Besides the club members a number of guests were present, including Mrs. E. O. Young of Huntington; Mrs. Wm. Hand, of Jenkins; Mrs. Price, Mesdames A. E. Aukler, Linton Trivette, Victor Bevin, W. P. Call, E. D. Stephenson, A. S. Reese, W. W. Gray, R. L. Miller, Miss Anna Espey. Late in the afternoon a delicious two course luncheon was served by the hostess, assisted by two of her younger sisters, Misses Rachel and Sarah Crawford.

Mrs. W. W. Gray has returned home after a visit with her mother in Bowling Green.

Mr. and Mrs. Linton Trivette had as their guests at dinner at the Jefferson Sunday noon, Mrs. E. O. Young, of Huntington, Dr. and Mrs. A. S. Reese and Gladys Banks Reese.

Mr. and Mrs. Price, who have a suite at the Jefferson had as their guests over Sunday, Mr. and Mrs. Wm. Hand of Jenkins.

The concert on Friday evening at the Presbyterian church by the Elbert Symphony orchestra, was greatly enjoyed by a large audience. This orchestra is composed of Prof. Fidel Elbert, first violin, W. P. Call, second violin, Geo. Hames, clarinet, Ira Williams, saxophone, W. W. Gray, bass viol, with Mrs. T. H. Harman, pianist. A number of orchestra numbers were very skillfully rendered by the whole orchestra, and the violin solos by Mr. Elbert were very much enjoyed. A special treat of the evening was the solos of Mrs. Edward Holley, who sang "Kathleen Mavourneen," and responded very gracefully to a number of encores. Mrs. Holley was beautifully gowned in a lovely evening gown of pale green, and her audience was charmed by her pleasing personality before she began to sing. Pikeville is to be congratulated on having such musicians in her midst.

Mrs. Lydia Ferrell, who has been very ill for some time, died at 3:30 a. m., Tuesday. No hopes had been felt for her recovery for some days, but her death comes as a shock to every one. She was one of the best loved and most useful members of the community for a number of years and her loss will be felt by a large circle of friends. She leaves two sons, a daughter and a number of grandchildren. The funeral on Wednesday afternoon was conducted by the order of Eastern Star, in their beautiful and impressive ceremony, and the remains were laid to rest beside those of her husband, her daughter, Mrs. T. M. Riddle and a granddaughter, in the family cemetery.

Mrs. E. O. Young of Huntington, who has been the very pleasant guest of Mrs. Linton Trivette, left for her home on Monday morning.

Mr. James D. Francis, who has been very ill with grippe, has almost entirely recovered and will probably be home in a few days. He is now in Washington, D. C., where he represents the West Virginia coal operators in the coal rate case before the Interstate Commerce Commission. Mrs. Francis and the children are visiting Mrs. Francis' mother, Mrs. Ella C. Elliott in Charlottesville, Va., for a few days.

Mr. Edgar P. Rice of Ashland, had as his dinner guests on Tuesday evening at the Jefferson, Dr. and Mrs. J. Verne Rice, Miss Violet Walker, Miss Neil Bevin and Mr. Francis Rice.

F. T. Hatcher, G. W. Greer and A. Runyon, of this city who attended the inauguration of President Wilson, have returned. Mr. Greer also visited Baltimore and Annapolis where his son, Raymond Greer is attending the naval academy.

Miss Edna L. Conley has returned to her home at West Van Lear, after a few days visit to Mrs. Roy Forsythe.

NATURAL GAS FOR PIKEVILLE.

The city of Pikeville, now dependent upon coal and electricity, will, it is believed, have natural gas before June 1. The Omar Oil & Gas company, of Pittsburgh, has taken over 20,000 acres of oil and gas lands in Pike and Floyd

counties, holdings of Attorney R. H. Cooper.

ENTERTAIN FOR MRS. YOUNG.

Mrs. E. O. Young, of Huntington, is the very pleasant guest of Mrs. Linton Trivette this week. Mrs. Young formerly lived here for nine years, and a number of social affairs have been given in her honor while here, among which were a dinner with Dr. and Mrs. A. S. Reese, on Monday evening at their home on Scott-av.; a dinner with Mrs. W. Dee Sutton at the Jefferson, on Tuesday evening; a dinner with Mr. and Mrs. D. L. Francis, on Friday evening, and a dinner with Miss Ethel Francis, at the Jefferson, at noon Sunday.

RETURNED TO PIKEVILLE.

Mrs. Will W. Gray, who has been spending the winter with her mother, Mrs. William Potter at Bowling Green, has returned here to her home.

IN HONOR OF MISS ROBERTSON.

Mrs. W. P. Call, with Mrs. Victor Bevin, gave a delightful at home on Friday afternoon in honor of Miss Etta Robertson. The beautiful hill-top home of Mrs. Call was most attractively decorated and softly lighted by candles. Little Miss Ruth Harman received the cards at the door. The receiving line consisted of Mrs. Call, Mrs. Bevin, Miss Robertson, Mrs. E. O. Young, of Huntington, Mrs. T. H. Harman, and Miss Alice Record. Misses Lorraine Bowles and Ethel Francis presided at the tea table for the first hour, being relieved by Mrs. Walter Hatcher, and Miss Violet Walker. They were assisted in the serving by a number of the girl friends of the hostesses. A large number of guests responded to the invitations.

ENTERTAINS WITH RECITAL.

The recital given on Thursday evening, February 22, at the Presbyterian church, by Miss Etta Robertson, now of New York, was a great delight to the music lovers of Pikeville. Miss Robertson was formerly teacher of music at Pikeville college, but for the past two years she has been studying with Yeatman Gibson, one of this country's foremost vocal teachers. Her voice has still the sweet quality which her friends here all so loved, with the added beauty which the technique she has given, making her, as her teacher prophesied, one of the rising artists of the day. Miss Robertson was the guest while here of Dr. and Mrs. Record.

Mrs. John Thornbury visited relatives in Catlettsburg last week.

D. Howerton, of Catlettsburg, transacted business here Friday.

Miss Judith Justice returned to her home in Catlettsburg after spending a few days with Mrs. Zach Justice, who is very ill.

A. Sidney Ratcliff had business in down river points recently.

Butler Bales was in Catlettsburg on Friday.

Miss Etta Robertson was the luncheon guest of Mrs. Linton Trivette on Friday.

Mrs. T. H. Harman had as her guests for dinner at noon Sunday, Misses Robertson, Alice Record and Alice Johnston.

Mrs. Lydia Ferrell, one of the most beloved of our aged ladies, is very seriously ill at her home on Auxier-av. All of her family has been summoned to her bedside. The ladies of the Eastern Star are very solicitous as to her comfort, she being one of the oldest members of the local organization.

Little Frank Bell Auxier, who was threatened with typhoid fever, is very much improved. His parents, Mr. and Mrs. A. E. Auxier were summoned from Florida, where they had gone only a few days before, but on their arrival here found him already on the road toward improvement.

Mr. James Sowards left recently for Florida for a few weeks' rest.

Mr. D. L. Francis, who has been spending a few weeks at home, left for Columbus, Ohio.

LETCHER COUNTY

While the epidemic of measles is dying out in most sections of Letcher-co., the malady is especially severe in the vicinity of Thornton creek, above here. The entire family of six of Representative John S. Webb is ill with the disease. Other whole families of that section are confined with the epidemic. The disease has been the worst ever known in the mountains.—Captains G. M. Holley and R. R. Pickering, of the regular army, inspected Company D, of the Whitesburg National Guard, here at 8 o'clock on the night of March 6.—The Letcher Fiscal Court has been in session here several days this week, during which steps have been taken looking to good road work in the county, to follow improved weather conditions.—An effort will be made to organize a Wheat Growers' Association in all the mountain counties, and to inspire, if possible, a sentiment to grow wheat again.

Particulars of the assassination of Bob Birdwell, of Camp Branch, while walking along the public road in Luce-castown, Saturday evening, are lacking. The two shots aimed at Birdwell emanated from a barn situated a few paces from the public road, and those who heard the shots believe the weapon was an old-fashioned rifle.

Beginning March 12, a Baptist Institute will be held in the Whitesburg Baptist church for five days. Among the leading speakers will be the Rev. C. C. Carroll, Winchester; Dr. George Ragland, Georgetown; the Rev. J. W. Crow and the Hon. W. H. May, Jenkins.

Williamson, W. Va., March 2.—Judge James Damron is reported improving in condition since he underwent a surgical operation in a Cincinnati hospital for the removal of a bullet embedded in his body since he was shot from ambush here a few weeks ago.

Within a short time he is expected to be in normal health for the operation is reported entirely successful.

Williamson, W. Va., March 2.—An

interurban car line between this city and Welch is promised within the next two years. Indications are that in a comparatively short time Williamson and Bluefield will be connected with such a road. Preliminary surveys have been made recently for the project and it is said that sufficient capital has been enlisted to build the line as soon as certain troublesome conditions have been remedied.

TRACHOMA HOSPITAL IS A GREAT SUCCESS.

Having some knowledge and observation of the work of the Trachoma hospital which is located in our town it may be interesting to the public to hear a few words of comment from an observer as to the results of the work. First, let me say that this article is not an advertisement nor am I a paid writer; I write it for the interest which I have in public health.

To explain to some who may not understand the meaning of the word "Trachoma," it is the disease among us commonly known as "Granulated lids," or as some say "Sore eyes." This disease causes much blindness and has become alarming to the health department of the United States government.

A little bit of history may be of interest in this connection. In the year 1898 when the government was calling for volunteers for the army to fight in the Spanish-American war and the best of our country's bone and sinew began to step forward to answer the call of our country, among the volunteers there appeared ten thousand men who had impaired vision and Trachoma was largely the cause of it. Thus the public health workers set the work to eradicate the disease from our country, and many hospitals have been established in various sections of the country for this purpose with specialists in charge. Pikeville, Ky., is very fortunate in securing one of these splendidly equipped hospitals for the service of the public.

The hospital was opened October 14, 1916 with a first class specialist, Dr. R. W. Raynor, M. D., at its head, who personally oversees the work and he is assisted by two elegant nurses who are always ready to attend to the direct needs of the patients.

Since the date of its establishment to February 1, 1917, there have been 1055 treatments in dispensary; 474 cases have been treated and 169 of these were Trachoma. It is an alarming fact that 90 per cent of all the patients treated have neglected taking treatment until they have impaired vision. Fifteen persons have come for treatment who have been found to be entirely blind.

All pastors of churches and those doing community work should be interested in this work of informing the afflicted of the place of relief. For many of the patients treated have been entirely cured and many of those who have been in an advanced stage of the disease have been greatly benefited. The capacity of the hospital is for 24 patients and each one has a single bed

for his use. There are now 17 patients in the hospital and room for more. The hospital is as comfortable and the surroundings are as pleasant as could be made.

The hospital is run at the expense of the United States government and no expense is spared to speedily cure. The average time of the treatment for the patients has been twelve days in the hospital. The hospital service is without cost to the patients. There have been 5091 meals served to the patients since its installation; and Dr. Raynor and the nurses are doing a high grade of hospital service to our country.

OBITUARY.

The death angel again saddened our home and took from us a dear husband and a good father, Rev. P. H. Billups was called from this transitory world to his eternal home on high. Bro. Billups has only crossed the narrow stream that gave him life eternal and in these years he has ever kept the lamp of the Lord in his hand and while passing through the dark shadows of death he feared no evil. The Lord has been good and his grace sustains. We look up through our tears and say "Thy will be done."

Rev. Billups was born March 9, 1850, died January 20, 1917, aged 66 years, 10 months and 10 days. Was converted January, 1865, had been a Baptist preacher for 35 years. He had been married twice, his first wife was Miss Hester Thompson. To this union were born six children, viz: Gracie, Elmon, John, Hiram, Fred and Bob. His second wife was the widow of A. R. Queen. To this union was born one child, Fanny Edna, who died in infancy. Bro. Billups' sickness was only a few days. He took pneumonia and was soon called from this world. I will just say mourn not for your father and husband for you know where to find him. Funeral services were conducted by Rev. Puckett at the Baptist church on Big Hurricane, W. Va., after which the body was laid to rest in the Christian graveyard to await the resurrection morn. "Asleep in Jesus, blessed sleep, From which none ever wakes to weep."
MRS. S. G. QUEEN.

IN MEMORY OF MOTHER.

1917, the dark banner waived over the home of H. W. Castle and called for its victim his loving wife.

All was done that loving hands could do, but all in vain. She had been in poor health for several years, but was only confined to her bed a few days. She suffered greatly for many days before death relieved her, but bore her suffering patiently. The eyes that sparkled with love and light are closed forever here on earth and her smiles are seen no more here, but she is smiling more brightly in the paradise of God.

She was born October 20, 1853 and died January 13, 1917, aged 63 years, 2 months and 13 days. She was the mother of eleven children of whom three preceded her to the great beyond and eight are still living.

The eight living are four boys and four girls. The girls being Mrs. Andy

PERUNA

No other remedy ever offered the American people has more friends after two generations of success; no other remedy is more generally used in the homes of the people; no other has been so enthusiastically endorsed by the thousands.

The reason is found in real merit. For coughs, colds, catarrh, whether local or systemic, and general debility following any of the above Peruna will be found effective, reliable and safe. For irregular appetite, impaired digestion and run-down system it is an invaluable tonic.

Peruna may be obtained in tablet form for convenience.

Webb, Mrs. Thomas Bows, Mrs. Thomas Cochran, and Mrs. Albion Ashline. The boys are Harry, Edgar, Ollie and Walker.

They were all present at the funeral. Her maiden name was Nancy Chapman, a daughter of Wm. Chapman.

Her friends visited here through her illness and at her death they mourned the loss of their friend. She is gone, but not forgotten. By the promise of our Savior we will meet again in the sweet bye and bye for God in his wisdom doeth all things well. He has placed her in that heavenly home and says friends and relatives prepare and look up to meet her. She will be waiting and watching at the beautiful gate for you.

The services were conducted by Rev. W. M. Burgess at her home on Lick creek on Sunday and the body was laid to rest in the Castle burial ground overlooking the home.

Oh this life is sad and lonely. When we think of toil and cares, Of the many missing faces, And the many vacant chairs. But toil on ye weary laborers Till your weary life is done, Then we'll meet our loving Savior. And we'll say the victory's won. But we are going home to heaven. Where our toils and cares will close. There we'll shout and sing for ever, And we'll reign above the sky. And there'll be no more parting. No more precious friends to die. A DAUGHTER, of Busseyville.
